

BLOCO AUTÔNOMO ESTANQUE PARA BALIZAMENTO

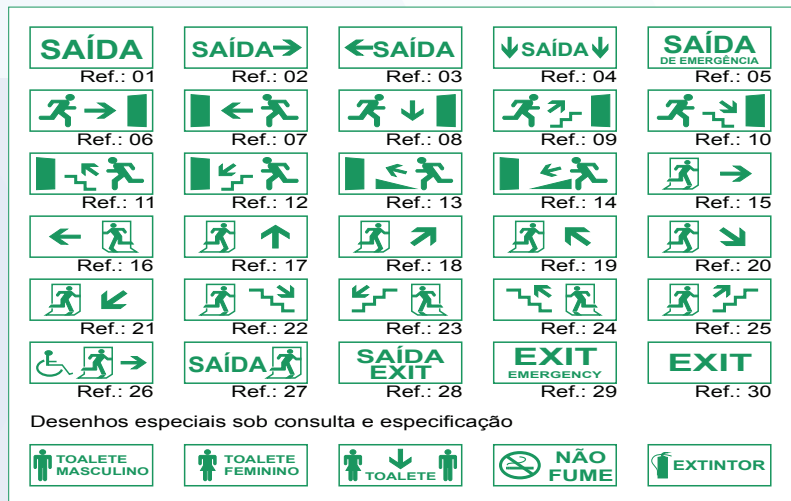

Características Técnicas:

- . Corpo e difusor fabricados em policarbonato resistente a impactos;
- . Para uso em sistema de iluminação normal e/ou de emergência;
- . Pode ser fornecido com 1 ou 2 lâmpadas PL fluorescente compacta de 9W ou 11W;
- . Opção com bateria interna selada de 6V-4Ah proporcionando uma autonomia de no máximo 2 horas;
- . Exclusivo sistema anti-furto que dificulta a remoção;
- . Pode ser instalada sobreposta ou embutindo no teto ou parede;
- . Pode ser utilizado em ambiente interno ou externo.

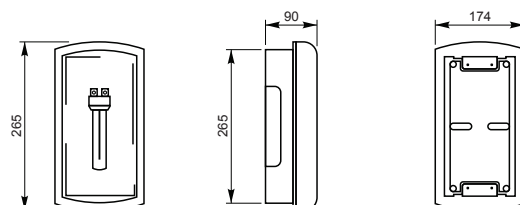

Sugestão de uso: Aclaramento e/ou balizamento de rotas de fuga e sinalização em geral.

Indicado para industria Naval / Offshore, Química, Petroquímica, Farmacêutica e em locais onde se requer resistência a choques mecânicos, tempo, gases, vapores e pó (TGVP).

MODELO	Nº LÂMPADAS X POTÊNCIA	TENSÃO	SUGESTÃO DE USO	BATERIA	AUTONOMIA	PESO APROXIMADO

SELF BLOCK WATERPROOF FOR APPOINTMENT

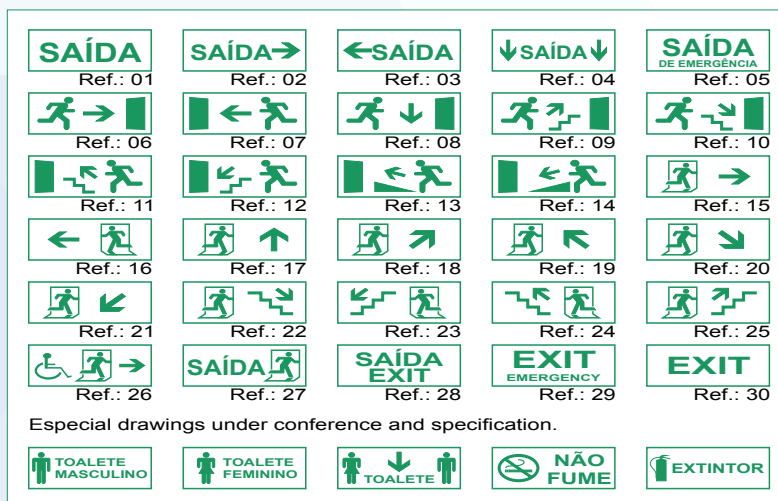

Technical Features:

- . Body em diffuser made in shock resistant polycarbonate;
- . Used in normal light system and/or emergency;
- . Can be provided with 1 or 2 lamps PL compact fluorescent 9W or 11W;
- . Optionally with sealed internal battery 6V-4Ah offering autonomy 2 hours maximum;
- . Exclusive anti theft system difficulting removal;
- . Can be installed surface or inlaid on ceiling or wall;
- . Can be used in internal and external places.

Suggested use: Clarification and/or appointment to escape route and signalling in general.

Indicated for Naval/Offshore industries, chemical, petrochemical and pharmaceutical where mechanical shock resistance, weather, gas, steam and dust resistance are required (non classified areas).
